Remember THESE MOMENTS

“If I am thinking correctly, said Pooh, a new baby is probably, undoubtedly, the grandest gift that could ever be.” - A. A. Milne, Winnie The Pooh

How true is that! And this is exactly why it is so important to capture memories of these special times.

What is the Best Time

FOR YOUR MATERNITY PORTRAITS?

The best time for maternity portraits is sometime between 26-34 weeks of pregnancy.

The ideal time can be different individually and depends on many things like the size of the baby, the built and height of the expecting mum, and if she has any issues during her pregnancy.

The best advice is to have your maternity photos taken when your belly already obviously shows and you are feeling great and up to it.

It is always a good idea to come for a pre-shoot consultation sometime during the second trimester and discuss the best time individually.

We also recommend to book your session a few weeks ahead because our calendar fills up quickly.

The Viewing

CHOOSING YOUR IMAGES

After your portrait shoot I will hand select the best of the best shots from your session. I'm going to choose only the epic images from the day, about 40-50 of them.

We are going to have another appointment, your reveal session, where I will show you a cinematic presentation of the images and then you get to choose your favourite ones and decide on your portrait collection.

I will give each of your chosen images a signature retouch and will also design and order the printed art you choose with your collection.

Payment for images, printed art and portrait collection is due at the reveal session.

Important Notes

We will ask you to pay the session fee at booking, to secure your appointment with our team.

Individual digital images can be purchased in addition to your chosen portrait collection.

We also offer museum grade mounted and framed fine art prints and fine art stretched canvases.

Please ask for our pricing guide to see the price of our portrait collections and wall portraits.
